No. 123 Marine.—The following Resolution by the Government of India in the Department of Commerce and Industry is republished for general information.

F. A. A. COWLEY,

Secy. to the Govt. of Bengal.

No. 15779-44, dated Simla, the 12th October 1915.

RESOLUTION—By the Government of India, Department of Commerce and Industry.

BY the Resolution of the Government of India in the Department of Commerce and Industry No. 7148-45, dated the 12th October 1910, an addition was made to the form of agreement for the engagement of lascars, requiring masters of foreign vessels to obtain the certificate of the British Consular Officer to changes in the crew occurring at foreign ports. No similar provision, however, exists with respect to changes in crews occurring at ports in British Colonies and Possessions. The Government of India consider it important that such provision should be made in order to afford Shipping Masters in India authentic information when paying off crews. The Secretary of State for India has concurred in the proposal and has taken action to secure that similar procedure should be adopted also in the United Kingdom.

2. The Governor General in Council is therefore pleased to direct, under section 27 of the Indian Merchant Shipping Act, 1883 (V of 1883), that the following additional stipulation be substituted for the last additional stipulation printed at the foot of page 1 of the form of agreement for lascars:

I hereby further agree that, in case before arrival at, or after arrival at, and before departure from, any port of call I shall make any new engagement or there shall occur any discharge, transfer, leaving behind, desertion, or death of any lascar or other native seaman under this agreement I will (if the same shall not have been previously reported) report such engagement, discharge, transfer, leaving behind, desertion, or death to the officer next hereinafter mentioned, that is to say, in the case of a foreign port the British Consular Officer at such port, and in the case of a port in the United Kingdom or in any British Dominion, Colony, or Possession, the Lascar Transfer Officer, or if there is no such officer the Superintendent, or in the absence of a Superintendent, the Chief Customs Officer thereat, and in the case of a port in a British Protectorate or a port in the Malay States, North Borneo, or Sarawak, the Chief Customs or Port Officer thereat, and in the case of a new engagement will attend before such officer and (by endorsement hereon or addition hereto, or otherwise as may be convenient) in his presence enter into an agreement with the lascar or other native seaman engaged in the same form as this agreement, and in the case of a discharge, transfer, leaving behind, desertion, or death will present this agreement to such officer for the purpose of his certifying by a memorandum thereon that such discharge, transfer, leaving behind, desertion, or death has taken place, and in the case of a discharge, transfer, or leaving behind that the same was authorised or unavoidable, and will pay to such officer in respect thereof the fee or fees prescribed in this behalf by the Consular Fees (Amendment) Order in Council, 1910, or by or in pursuance of any other order or law for the time being in force, or if the certifying officer is not a Consular Officer the same fee or fees (unless it is otherwise provided by any rule or enactment locally in force) as would have been payable under such Order or law as the case may be if he had been such an officer.

ORDER.—Ordered that a copy of the Resolution be forwarded to the Government of Madras, Bombay, Bengal, Marine Department, and to the Government of Burma, Commerce Department (with reference to the correspondence ending with the letter from that Government No. 375, dated the 20th May 1913.

The 23rd November 1915.

No. 129 Marine.—The following revised scheme of storm-warning signals as finally approved by the Government of India, is published for general information, so far as it relates to ports in the Bay of Bengal situated in the Presidency of Bengal. The scheme shall come into force with effect from the 1st January 1916.

STORM-WARNING SERVICE.

The Government of India have decided to revise the distribution of meteorological information to ports and shipping. At present information is given by the hoisting of storm-signals, by the exhibition of flags, and by telegrams in code to Port Officers. The meaning of the storm-signals now in use is different at different ports, and the new system is so arranged that the meaning of any given signal will be the same throughout the Indian seas, the only difference between different ports being that a larger or smaller number of signals will be in use. The flag-signals will be replaced by signals giving the locality of disturbances, and the sending of eight-word-code telegrams to Port Officers will be discontinued. The scheme now to be brought into use may be shortly described as—

- (a) *a general system* of eleven signals, two of which will indicate the existence of distant disturbed weather, eight will indicate that local bad weather threatens the port, while the remaining one will indicate that communication with the Meteorological Department has broken down and that in the opinion of the local officer there is danger of bad weather.
- (b) *a brief system* consisting of four only of the above signals. This system will be used at a few ports frequented mainly by small Indian boats engaged in local traffic.
- (c) *the general system combined with additional daily signals* either to indicate that weather is undisturbed or if bad weather exists to show the position of the disturbance. This system will be in daily operation at certain stations in the Bay of Bengal and has been devised to replace the flag-signals at present in use.

The following are the ports in the Presidency of Bengal situated in the Bay of Bengal which will come under the different systems :—

General system.	General system with additional signals.
Cox's Bazar.	Chittagong.
Calcutta.	Saugor Island.
Budge-Budge.	Sandheads.
Mud Point.	
Diamond Harbour.	

I.—GENERAL SYSTEM.

The Meteorological Department will keep Port Officers informed of the latest information with respect to all disturbances, and ships' officers should apply to them for information to supplement the storm-signals.

DISTANT SIGNALS

to indicate danger to ships after they have left the harbour.

I. CAUTIONARY.—*There is a region of squally weather in which a storm may be forming.*

NOTE.—This signal will be hoisted at ports situated with reference to the disturbed weather such that a ship leaving the port might run into danger during its voyage.

Day.

Night.

II. WARNING.—*A storm has formed.*

NOTE.—This signal will be hoisted when there is no immediate danger of the port itself being affected, but ships leaving the port might run into the storm.

LOCAL SIGNALS

to indicate that the port and ships in it are threatened.

Day.

Night.

III. CAUTIONARY.—*The port is threatened by squally weather.*

IV. WARNING.—*The port is threatened by a storm but it does not appear that the danger is as yet sufficiently great to justify extreme measures of precaution.*

NOTE.—The existence of a storm can often be determined before its direction of motion can be fixed. In this case all those ports which the storm could possibly strike will be warned by this signal.

V. DANGER.—*The port will experience severe weather from a storm of slight or moderate intensity that is expected to cross the coast to the south of the port (or to the east in the case of the Hooghly Ports).*

VI. DANGER.—*The port will experience severe weather from a storm of slight or moderate intensity that is expected to cross the coast to the north of the port (or to the west in the case of the Hooghly Ports and Chittagong).*

	Day.	Night.
VII. DANGER.—The port will experience severe weather from a storm of slight or moderate intensity that is expected to cross over or near to the port.		
VIII. GREAT DANGER.—The port will experience severe weather from a storm of great intensity that is expected to cross the coast to the south of the port (or to the east in the case of the Hooghly Ports).		
IX. GREAT DANGER.—The port will experience severe weather from a storm of great intensity that is expected to cross the coast to the north of the port (or to the west in the case of the Hooghly Ports and Chittagong).		
X. GREAT DANGER.—The port will experience severe weather from a storm of great intensity that is expected to cross over or near to the port.		
XI. FAILURE OF COMMUNICATIONS.—Communication with the meteorological head-quarters has broken down and the local officer considers that there is danger of bad weather.		

II.—BRIEF SYSTEM

for use at certain small ports.

In the brief system only the four following signals will be hoisted, but the Port Officers will be kept informed of the progress of bad weather for the general information of shipping:—

Signal No. III—Cautionary	} Meaning day and night signals as in the General system.
Signal No. IV—Warning	
Signal No. VII—Danger	
Signal No. X—Great danger	

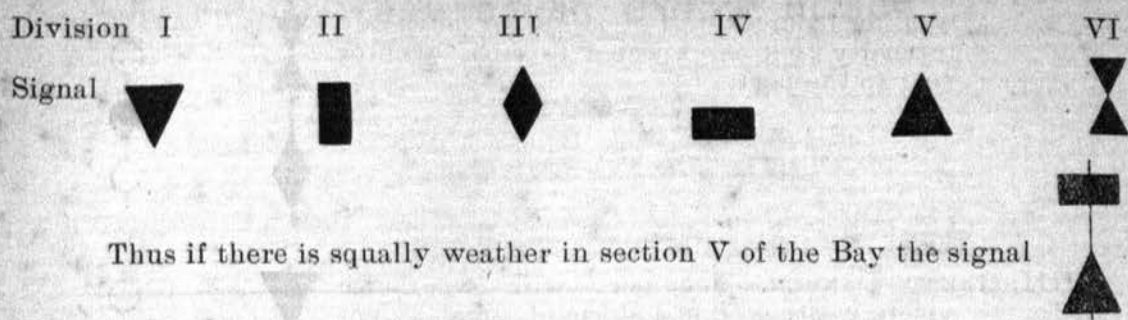

N.B.—Under this system there are no ports in the Presidency of Bengal situated in the Bay of Bengal.

III.—ADDITIONAL DAILY SIGNALS FOR THE BAY OF BENGAL.

In order to give daily information to a port regarding weather in the Bay it is necessary to provide for the following cases:—

- if no disturbance exists in the Bay of Bengal the fact will be indicated by hoisting a ball,
- if the port itself is threatened the appropriate local signal of the "general system" will be hoisted,
- if there be an area of squally weather or a storm that does not threaten the port the "distant cautionary" or "distant warning" of the "general system" will be hoisted; and additional signs will be hoisted under these to indicate the position of the disturbance in the Bay. For this purpose the Bay has been divided

into six sections** and the following shapes have been allotted to each of the divisions :—

Thus if there is squally weather in section V of the Bay the signal

would be hoisted at the various ports; and if a storm has formed in

section II the signal  would be hoisted at all ports which were not

directly threatened; as already stated the ports threatened would hoist one or other of the local signals. The Meteorological Department will endeavour to keep the number of locality signals on each hoist as few as possible and generally only the number of the section in which the centre of the storm is situated will be given. If however the centre of the storm is near the boundary of a division two locality signals will be given, the first indicating the division in which the centre is supposed to be and the second the neighbouring division near to which it is. In the event of a storm centre being near to the angles where three divisions meet, three locality signals will be hoisted. The first will give the division in which the storm is supposed to be, the second the nearest adjoining division and the third the remaining division.

Examples—

Storm centre				Locality signals.
Lat. 16 N Long. 86 E	II.
Lat. 16 N Long. 88 E	II and III.
Lat. 16 N Long. 89 E	III and II.
Lat. 18 N Long. 87½ E	II, I and III.
Lat. 19 N Long. 89½ E	I, III and II.

** The sections may be defined as follows :—

- I.—Contains the area north of lat. 18½°;
- II.—Lies south of I; it is bounded on the south by lat. 13° and to the east by long. 88½°;
- III.—Lies south of I and east of II; it is bounded to the south by lat. 13° and to the east by a line from the point 13° N. 93° E. to Diamond Island together with the Arakan coast thence up to 18½° N.;
- IV.—Lies south of II and west of 86°;
- V.—Lies east of IV, south of II, III and west of 93°;
- VI.—Lies east of III, IV and represents the Andaman Sea.

A map illustrating these sections accompanies the Code of Storm-warning Signals, published by the Government of India which will be had on application to the Port Officers, Calcutta or Chittagong.

(vi) The said promissory notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or, whether there shall be a loss on such re-sale or not.

(vii) The promissory notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M., if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

(viii) No tender of money, Bank of Bengal receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause (v) on the fifth day following the day of sale, will be afterwards accepted: Provided always that money so subsequently tendered may be taken in payment of the said promissory note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. (v) and No. (vi).

(ix) The opium advertised for sale shall be paid for not later than 3-30 P.M. of the fifteenth day after the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and, in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as Government shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

(x) Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots or of a different number of lots or chests, whether more or less, than the number of lots or chests ordinarily required to be included in each certificate or order.

(xi) No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

(xii) The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India notes, Bank of Bengal receipts, or Government securities, a sum equal to the amount for which a promissory note would otherwise be taken under the fifth of these conditions.

(xiii) With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained; and the first *bond fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 1,800 specified in the second of these conditions.

(xiv) The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of opium not exceeding altogether fifteen lots, provided always that there remain a sufficient number of lots of the opium to complete the said fifteen.

(xv) In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

5. The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the office of the Government of Bengal :—

No. 1—Certificate of the opium advertised for sale.

No. 2—Report of the examination of such opium.

6. The public are hereby informed that in providing the investment of the opium manufactured at the Ghazipur Factory, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug, when packed at the Ghazipur Factory, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the office of the Government of Bengal.

7. Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the office of the Government of Bengal. But, in accordance with established usage, under no circumstances will the Government entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Governor in Council,

J. DONALD,
Secretary.

[Second publication.]*The 23rd November 1915.*

No. 129 Marine.—The following revised scheme of storm-warning signals as finally approved by the Government of India, is published for general information, so far as it relates to ports in the Bay of Bengal situated in the Presidency of Bengal. The scheme shall come into force with effect from the 1st January 1916.

STORM-WARNING SERVICE.

The Government of India have decided to revise the distribution of meteorological information to ports and shipping. At present information is given by the hoisting of storm-signals, by the exhibition of flags, and by telegrams in code to Port Officers. The meaning of the storm-signals now in use is different at different ports, and the new system is so arranged that the meaning of any given signal will be the same throughout the Indian seas, the only difference between different ports being that a larger or smaller number of signals will be in use. The flag-signals will be replaced by signals giving the locality of disturbances, and the sending of eight-word-code telegrams to Port Officers will be discontinued. The scheme now to be brought into use may be shortly described as—

- (a) *a general system* of eleven signals, two of which will indicate the existence of distant disturbed weather, eight will indicate that local bad weather threatens the port, while the remaining one will indicate that communication with the Meteorological Department has broken down and that in the opinion of the local officer there is danger of bad weather.
- (b) *a brief system* consisting of four only of the above signals. This system will be used at a few ports frequented mainly by small Indian boats engaged in local traffic.
- (c) *the general system combined with additional daily signals* either to indicate that weather is undisturbed or if bad weather exists to show the position of the disturbance. This system will be in daily operation at certain stations in the Bay of Bengal and has been devised to replace the flag-signals at present in use.

The following are the ports in the Presidency of Bengal situated in the Bay of Bengal which will come under the different systems:—

General system.	General system with additional signals.
Cox's Bazar.	Chittagong.
Calcutta.	Saugor Island.
Budge-Budge.	Sandheads.
Mud Point.	
Diamond Harbour.	

I.—GENERAL SYSTEM.

The Meteorological Department will keep Port Officers informed of the latest information with respect to all disturbances, and ships' officers should apply to them for information to supplement the storm-signals.

DISTANT SIGNALS

to indicate danger to ships after they have left the harbour.

I. CAUTIONARY.—*There is a region of squally weather in which a storm may be forming.*

NOTE.—This signal will be hoisted at ports situated with reference to the disturbed weather such that a ship leaving the port might run into danger during its voyage.

Day.

Night.

II. WARNING.—*A storm has formed.*

NOTE.—This signal will be hoisted when there is no immediate danger of the port itself being affected, but ships leaving the port might run into the storm.

LOCAL SIGNALS

to indicate that the port and ships in it are threatened.

III. CAUTIONARY.—*The port is threatened by squally weather.*

Day.

Night.

IV. WARNING.—*The port is threatened by a storm but it does not appear that the danger is as yet sufficiently great to justify extreme measures of precaution.*

NOTE.—The existence of a storm can often be determined before its direction of motion can be fixed. In this case all those ports which the storm could possibly strike will be warned by this signal.

V. DANGER.—*The port will experience severe weather from a storm of slight or moderate intensity that is expected to cross the coast to the south of the port (or to the east in the case of the Hooghly Ports).*

VI. DANGER.—*The port will experience severe weather from a storm of slight or moderate intensity that is expected to cross the coast to the north of the port (or to the west in the case of the Hooghly Ports and Chittagong).*

	Day.	Night.
VII. DANGER.—The port will experience severe weather from a storm of slight or moderate intensity that is expected to cross over or near to the port.		
VIII. GREAT DANGER.—The port will experience severe weather from a storm of great intensity that is expected to cross the coast to the south of the port (or to the east in the case of the Hooghly Ports).		
IX. GREAT DANGER.—The port will experience severe weather from a storm of great intensity that is expected to cross the coast to the north of the port (or to the west in the case of the Hooghly Ports and Chittagong).		
X. GREAT DANGER.—The port will experience severe weather from a storm of great intensity that is expected to cross over or near to the port.		
XI. FAILURE OF COMMUNICATIONS.—Communication with the meteorological head-quarters has broken down and the local officer considers that there is danger of bad weather.		

II.—BRIEF SYSTEM

for use at certain small ports.

In the brief system only the four following signals will be hoisted, but the Port Officers will be kept informed of the progress of bad weather for the general information of shipping:—

Signal No. III—Cautionary	} Meaning day and night signals as in the General system.
Signal No. IV—Warning	
Signal No. VII—Danger	
Signal No. X—Great danger	

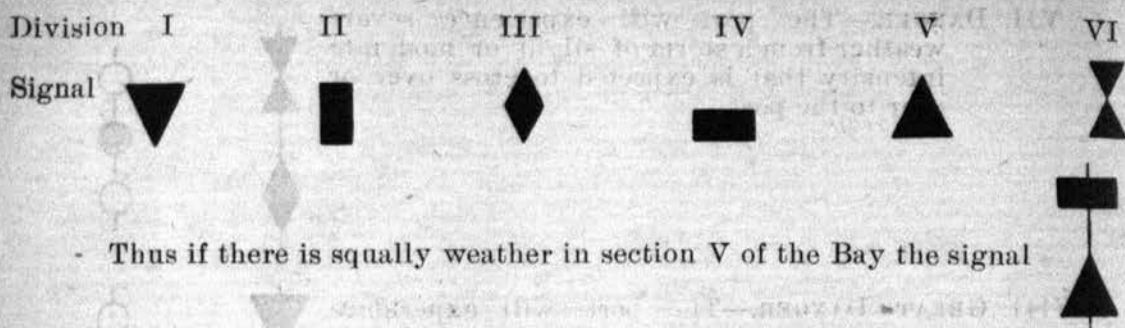

N.B.—Under this system there are no ports in the Presidency of Bengal situated in the Bay of Bengal.

III.—ADDITIONAL DAILY SIGNALS FOR THE BAY OF BENGAL.

In order to give daily information to a port regarding weather in the Bay it is necessary to provide for the following cases:—

- if no disturbance exists in the Bay of Bengal the fact will be indicated by hoisting a ball,
- if the port itself is threatened the appropriate local signal of the "general system" will be hoisted,
- if there be an area of squally weather or a storm that does not threaten the port the "distant cautionary" or "distant warning" of the "general system" will be hoisted; and additional signs will be hoisted under these to indicate the position of the disturbance in the Bay. For this purpose the Bay has been divided

into six sections** and the following shapes have been allotted to each of the divisions :—

Thus if there is squally weather in section V of the Bay the signal would be hoisted at the various ports; and if a storm has formed in

section II the signal would be hoisted at all ports which were not

directly threatened; as already stated the ports threatened would hoist one or other of the local signals. The Meteorological Department will endeavour to keep the number of locality signals on each hoist as few as possible and generally only the number of the section in which the centre of the storm is situated will be given. If however the centre of the storm is near the boundary of a division two locality signals will be given, the first indicating the division in which the centre is supposed to be and the second the neighbouring division near to which it is. In the event of a storm centre being near to the angles where three divisions meet, three locality signals will be hoisted. The first will give the division in which the storm is supposed to be, the second the nearest adjoining division and the third the remaining division.

Examples—

Storm centre.					Locality signals.

Lat. 16 N Long. 88 E	II and III.
Lat. 16 N Long. 89 E	III and II.
Lat. 18 N Long. 87½ E	II, I and III.
Lat. 19 N Long. 89½ E	I, III and II.

** The sections may be defined as follows :—

- I.—Contains the area north of lat. 18½°;
- II.—Lies south of I; it is bounded on the south by lat. 13° and to the east by long. 88½°;
- III.—Lies south of I and east of II; it is bounded to the south by lat. 13° and to the east by a line from the point 13° N. 93° E to Diamond Island together with the Arakan coast thence up to 18½° N.;
- IV.—Lies south of II and west of 86°;
- V.—Lies east of IV, south of II, III and west of 93°;
- VI.—Lies east of III, IV and represents the Andaman Sea.

A map illustrating these sections accompanies the Code of Storm-warning Signals, published by the Government of India which will be had on application to the Port Officers, Calcutta or Chittagong.

2. (1) Arms and ammunition which are the property of Government are entitled to free entry.

(2) Arms and ammunition not being the property of Government, and carried by officers or men on duty, may be passed free when they fall under the conditions of Exception II to Schedule II of the Indian Tariff Act, 1894. Copies of these exceptions will be issued to the Baggage Officers with the rules.

(3) Rifles of regulation military pattern, and parts and appurtenances thereof, as well as ammunition for the same may be passed free when imported direct by an officer of His Majesty's regular forces serving in India for his own use, provided that under the regulations and orders for the time being in force the officer is required to maintain the articles in question for the performance of his military duty.

INSTRUCTIONS FOR FILLING IN THE DECLARATION.

Passengers should fill in the first two columns only. Columns 3 and 4 will be filled in by the Custom House.

Rules for the exemption of passengers' baggage from Customs duty.

1. The *bona-fide* baggage of a passenger is exempt from duty when it accompanies him, does not form part of the cargo, and is not included in the manifest.

2. *Bona-fide* baggage shall include wearing apparel and personal effects, provided that the articles are not for sale and are imported for the personal use of the passenger or for the use of members of his family travelling with him, but it shall not include the following articles, on which duty must be paid in all cases :—

- (a) Arms, ammunition and all other articles enumerated in Schedule II of the Tariff Import Schedule.
- (b) Alcoholic liquor exceeding two quarts, perfumed spirit exceeding one quart, and all other articles enumerated in Schedule III.
- (c) Cigars and cigarettes exceeding 100 in number, whether in opened or unopened boxes, and other tobacco exceeding 1 lb. in weight.
- (d) Pianos, pianolas, carriages, motor-cars and motor-cycles.
- (e) Articles for household use, such as furniture, pictures, carpets, glass, crockery, cutlery, and silver and plated ware, except such articles (other than furniture or carpets) as shall appear to the Customs authorities to be imported in a moderate quantity and to be required for the personal use of the passenger whilst travelling or immediately upon his arrival at his destination.

3. Notwithstanding anything to the contrary in rule 1, *bona-fide* baggage landed at any Customs port within one month before or after the arrival of a passenger in India may, subject to the exceptions specified in rule 2, be passed free at the discretion of the Collector of Customs.

4. When articles, such as firearms, bear any marks, such as maker's name and a number by which they can be identified, such marks should be noted against them. Omission to give details in the case of firearms frequently results in the levy of duty a second time.

5. Articles imported as cargo, *i.e.*, entered in the ship's manifest, should be distinguished from articles imported as baggage in this form. Such articles will not ordinarily be passed free, but they may be so passed at the discretion of the Collector of Customs under rule 3 above.

NOTICE.

1. Duty when charged *ad valorem* is charged on the value of the goods in India, including cost of importation.

2. On payment of duty, a receipt on a printed form will be immediately granted. All arms should be submitted to the Customs officers for examination to enable them to take the description of the arms and to note other particulars required for future identification.

3. All rifles are now permitted to be imported except those of .303 and .450 bores. A British Officer in staff, departmental or regimental employ, or an enrolled member of a Volunteer Corps, or Staff Sergeant or Warrant Officer of British Units of the Army, including Instructors of Volunteer Corps, may import, on payment of duty, *one* single-barrel .303 rifle for match-shooting purposes, provided it is sighted to over 1,000 yards, and that a rifle so imported is to form part of the equipment of the Corps to which the importer belongs. For this purpose the owner must at the time of import produce a certificate from his Commanding Officer to the effect that the weapon in question will be brought on to the equipment ledger of his Corps, or in the case of an officer in staff or departmental employ, a certificate from the senior officer or head of the department to which he belongs, to the effect that the weapon will be brought on to the equipment ledger of a Corps in the officer's command or office inventory of stores and will be accounted for in the same manner as other equipment.

4. Any article on which duty is proved to have been previously paid on its importation into India is exempt, provided that not more than three years have elapsed since it was taken out of India, and that it remains the property of the original importer, or of a member of his family. All such articles must be entered in the Declaration and the grounds of exemption stated in the last column. Passengers are strongly advised to keep carefully the receipts for duty paid upon any articles likely to be taken out of India again and re-imported, in order that they may be able to pass them free at the time of such re-importation.

No passenger is entitled to exemption from duty on firearms on the ground that the arms are re-imported and that duty was paid on them on their first importation unless (1) the original receipt for the duty paid is forwarded to the Custom House either at the time of exportation or at the time of re-importation, (2) in the case of arms exported as baggage, particulars of the arms as to description and the name of maker and number on the arms have been forwarded to the Custom House at the port of embarkation for registration and a pass obtained before shipment, and the pass is produced at the time of re-importation for the purpose of checking the arms with the pass, and (3) in the case of arms exported as cargo, particulars of the arms as above have been given in the shipping bill, and information as to the date and the vessel by which exported is furnished at the time of re-importation to allow of the information being checked by a reference to the shipping bill, or if the port of re-importation is not the original port of exportation, a certificate is produced from the Customs authorities at the port of exportation certifying to the correctness of such information.

Exemption from duty cannot be allowed in any case where (1) drawback has been claimed and paid on the exportation of the arms, or where (2) the arms have passed out of the possession of the original importer or a member of his family, or where (3) the arms are imported as merchandise for sale and not for private personal use; or where (4) the arms were exported more than three years before their re-importation.

5. The articles mentioned below, when imported direct by an officer of His Majesty's Regular Forces serving in India for his own use, are passed free, provided that under the regulations and orders for the time being in force the officer is required to maintain the articles in question for the due performance of his military duty:—

Rifles of regulation military pattern, and parts and appurtenances thereof. Ammunition for such rifles.

6. Any person making a false declaration or attempting to pass dutiable goods without payment of duty is liable to a fine of Rs. 500 and confiscation of the property.

7. All Americans and Europeans who are not natural-born or naturalised British subjects should take out licenses for arms and ammunition in their possession when they intend to reside permanently in India.

8. For all information regarding the landing and clearing of baggage, passengers are requested to apply to the Baggage Officers on board or in the Baggage godown at the Custom House.

9. A charge is made on account of wharf rent, if baggage is not cleared from the Custom House within 4 days from the date of its receipt.

3. Government reserves to itself the right to alter the quantity of opium to be offered for sale in each month. No reduction in the quantities to be sold, however, will be made without three months' previous notice.

4. The following are the conditions of sale. Government reserves to itself the right of altering all or any of these conditions after giving three months' previous notice, and power is reserved to vary the upset price referred to in condition (ii) at any time without such previous notice :—

(i) The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

(ii) The opium will be ordinarily offered for sale at an upset price of Rs. 1,800 per chest of uncertified opium and will be sold to the highest bidder above that price, except under the circumstances for which provision is made by clause (xiii) of these conditions of sale. The bids must advance by Rs. 5 at a time.

(iii) The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M., but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of Government, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or if the whole quantity advertised shall not be sold on the day appointed, the Government may dispose of the lots which remain on hand at a future sale.

(iv) Each lot shall contain five chests.

(v) A promissory note for a sum, calculated according to the scale noted

DEPOSIT.

When the amount bid is less than Rs. 2,000 per chest, Rs. 400 per chest.

On bids of Rs. 2,000 and upwards, but less than Rs. 2,400 per chest, Rs. 500 per chest.

On bids of Rs. 2,400 and upwards, but less than Rs. 2,800 per chest, Rs. 600 per chest.

And so on, Rs. 100 being added to the deposit for every bid additional to the extent of Rs. 400.

in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such promissory notes shall be redeemed on the part of the purchasers at this office by Bank of Bengal receipts, or by substitution of other public securities of the Government of India, on or before 3-30 P.M., in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as Government shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

(vi) The said promissory notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or, whether there shall be a loss on such re-sale or not.

(vii) The promissory notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M., if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

(viii) No tender of money, Bank of Bengal receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause (v) on the fifth day following the day of sale, will be afterwards accepted: Provided always that money so subsequently tendered may be taken in payment of the said promissory note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. (v) and No. (vi).

(ix) The opium advertised for sale shall be paid for not later than 3-30 P.M. of the fifteenth day after the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and, in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as Government shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

(x) Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots or of a different number of lots or chests, whether more or less, than the number of lots or chests ordinarily required to be included in each certificate or order.

(xi) No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

(xii) The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India notes, Bank of Bengal receipts, or Government securities, a sum equal to the amount for which a promissory note would otherwise be taken under the fifth of these conditions.

(xiii) With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained; and the first *bonâ fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 1,800 specified in the second of these conditions.

(xiv) The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of opium not exceeding altogether fifteen lots, provided always that there remain a sufficient number of lots of the opium to complete the said fifteen.

(xv) In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

5. The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the office of the Government of Bengal:—

No. 1—Certificate of the opium advertised for sale.

No. 2—Report of the examination of such opium.

6. The public are hereby informed that in providing the investment of the opium manufactured at the Ghazipur Factory, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug, when packed at the Ghazipur Factory, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the office of the Government of Bengal.

7. Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the office of the Government of Bengal. But, in accordance with established usage, under no circumstances will the Government entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

MARINE DEPARTMENT.

[Third publication.]

The 23rd November 1915.

No. 129 Marine.—The following revised scheme of storm-warning signals as finally approved by the Government of India, is published for general information, so far as it relates to ports in the Bay of Bengal situated in the Presidency of Bengal. The scheme shall come into force with effect from the 1st January 1916.

STORM-WARNING SERVICE.

The Government of India have decided to revise the distribution of meteorological information to ports and shipping. At present information is given by the hoisting of storm-signals, by the exhibition of flags, and by telegrams in code to Port Officers. The meaning of the storm-signals now in use is different at different ports, and the new system is so arranged that the meaning of any given signal will be the same throughout the Indian seas, the only difference between different ports being that a larger or smaller number of signals will be in use. The flag-signals will be replaced by signals giving the locality of disturbances, and the sending of eight-word-code telegrams to Port Officers will be discontinued. The scheme now to be brought into use may be shortly described as—

- (a) *a general system* of eleven signals, two of which will indicate the existence of distant disturbed weather, eight will indicate that local bad weather threatens the port, while the remaining one will indicate that communication with the Meteorological Department has broken down and that in the opinion of the local officer there is danger of bad weather.
- (b) *a brief system* consisting of four only of the above signals. This system will be used at a few ports frequented mainly by small Indian boats engaged in local traffic.
- (c) *the general system combined with additional daily signals* either to indicate that weather is undisturbed or if bad weather exists to show the position of the disturbance. This system will be in daily operation at certain stations in the Bay of Bengal and has been devised to replace the flag-signals at present in use.

The following are the ports in the Presidency of Bengal situated in the Bay of Bengal which will come under the different systems :—

General system.	General system with additional signals.
Cox's Bazar.	Chittagong.
Calcutta.	Saugor Island.
Budge-Budge.	Sandheads.
Mud Point.	
Diamond Harbour.	

I.—GENERAL SYSTEM

The Meteorological Department will keep Port Officers informed of the latest information with respect to all disturbances, and ships' officers should apply to them for information to supplement the storm-signals

DISTANT SIGNALS

to indicate danger to ships after they have left the harbour.

I. CAUTIONARY.—*There is a region of squally weather in which a storm may be forming.*

NOTE.—This signal will be hoisted at ports situated with reference to the disturbed weather such that a ship leaving the port might run into danger during its voyage.

Day.

Night.

II. WARNING.—*A storm has formed.*

NOTE.—This signal will be hoisted when there is no immediate danger of the port itself being affected, but ships leaving the port might run into the storm.

LOCAL SIGNALS

to indicate that the port and ships in it are threatened.

III. CAUTIONARY.—*The port is threatened by squally weather.*

Day.

Night.

IV. WARNING.—*The port is threatened by a storm but it does not appear that the danger is as yet sufficiently great to justify extreme measures of precaution.*

NOTE.—The existence of a storm can often be determined before its direction of motion can be fixed. In this case all those ports which the storm could possibly strike will be warned by this signal.

V. DANGER.—*The port will experience severe weather from a storm of slight or moderate intensity that is expected to cross the coast to the south of the port (or to the east in the case of the Hooghly Ports).*

VI. DANGER.—*The port will experience severe weather from a storm of slight or moderate intensity that is expected to cross the coast to the north of the port (or to the west in the case of the Hooghly Ports and Chittagong).*

	Day.	Night.
VII. DANGER.—The port will experience severe weather from a storm of slight or moderate intensity that is expected to cross over or near to the port.		
VIII. GREAT DANGER.—The port will experience severe weather from a storm of great intensity that is expected to cross the coast to the south of the port (or to the east in the case of the Hooghly Ports).		
IX. GREAT DANGER.—The port will experience severe weather from a storm of great intensity that is expected to cross the coast to the north of the port (or to the west in the case of the Hooghly Ports and Chittagong).		
X. GREAT DANGER.—The port will experience severe weather from a storm of great intensity that is expected to cross over or near to the port.		
XI. FAILURE OF COMMUNICATIONS.—Communication with the meteorological head-quarters has broken down and the local officer considers that there is danger of bad weather.		

II.—BRIEF SYSTEM

for use at certain small ports.

In the brief system only the four following signals will be hoisted, but the Port Officers will be kept informed of the progress of bad weather for the general information of shipping:—

Signal No. III—Cautionary	} Meaning day and night signals as in the General system.
Signal No. IV—Warning	
Signal No. VII—Danger	
Signal No. X—Great danger	

N.B.—Under this system there are no ports in the Presidency of Bengal situated in the Bay of Bengal.

III.—ADDITIONAL DAILY SIGNALS FOR THE BAY OF BENGAL.

In order to give daily information to a port regarding weather in the Bay it is necessary to provide for the following cases:—

- if no disturbance exists in the Bay of Bengal the fact will be indicated by hoisting a ball,
- if the port itself is threatened the appropriate local signal of the "general system" will be hoisted,
- if there be an area of squally weather or a storm that does not threaten the port the "distant cautionary" or "distant warning" of the "general system" will be hoisted; and additional signs will be hoisted under these to indicate the position of the disturbance in the Bay. For this purpose the Bay has been divided

into six sections** and the following shapes have been allotted to each of the divisions :—

Division	I	II	III	IV	V	VI
Signal						

Thus if there is squally weather in section V of the Bay the signal

would be hoisted at the various ports; and if a storm has formed in

section II the signal

would be hoisted at all ports which were not

directly threatened; as already stated the ports threatened would hoist one or other of the local signals. The Meteorological Department will endeavour to keep the number of locality signals on each hoist as few as possible and generally only the number of the section in which the centre of the storm is situated will be given. If however the centre of the storm is near the boundary of a division two locality signals will be given, the first indicating the division in which the centre is supposed to be and the second the neighbouring division near to which it is. In the event of a storm centre being near to the angles where three divisions meet, three locality signals will be hoisted. The first will give the division in which the storm is supposed to be, the second the nearest adjoining division and the third the remaining division.

Examples—

Storm centre.				Locality signals.
Lat. 16 N Long. 86 E	II.
Lat. 16 N Long. 88 E	II and III.
Lat. 16 N Long. 89 E	III and II.
Lat. 18 N Long. 87½ E	II, I and III.
Lat. 19 N Long. 89½ E	I, III and II.

**The sections may be defined as follows :—

- I.—Contains the area north of lat. 18½°;
- II.—Lies south of I; it is bounded on the south by lat. 13° and to the east by long. 88½°;
- III.—Lies south of I and east of II; it is bounded to the south by lat. 13° and to the east by a line from the point 13° N. 93° E. to Diamond Island together with the Arakan coast thence up to 18½° N.;
- IV.—Lies south of II and west of 86°;
- V.—Lies east of IV, south of II, III and west of 93°;
- VI.—Lies east of III, IV and represents the Andaman Sea

A map illustrating these sections accompanies the Code of Storm-warning Signals, published by the Government of India which will be had on application to the Port Officers, Calcutta or Chittagong.

3. Government reserves to itself the right to alter the quantity of opium to be offered for sale in each month. No reduction in the quantities to be sold, however, will be made without three months' previous notice.

4. The following are the conditions of sale. Government reserves to itself the right of altering all or any of these conditions after giving three months' previous notice, and power is reserved to vary the upset price referred to in condition (ii) at any time without such previous notice:—

(i) The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

(ii) The opium will be ordinarily offered for sale at an upset price of Rs. 1,800 per chest of uncertified opium and will be sold to the highest bidder above that price, except under the circumstances for which provision is made by clause (xiii) of these conditions of sale. The bids must advance by Rs. 5 at a time.

(iii) The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M., but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of Government, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or if the whole quantity advertised shall not be sold on the day appointed, the Government may dispose of the lots which remain on hand at a future sale.

(iv) Each lot shall contain five chests.

(v) A promissory note for a sum, calculated according to the scale noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such promissory notes shall be redeemed on the part of the purchasers at this office by Bank of Bengal receipts, or by substitution of other public securities of the Government of India, on or before 3-30 P.M., in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be

DEPOSIT.

When the amount bid is less than Rs. 2,000 per chest, Rs. 400 per chest.

On bids of Rs. 2,000 and upwards, but less than Rs. 2,400 per chest, Rs. 500 per chest.

On bids of Rs. 2,400 and upwards, but less than Rs. 2,800 per chest, Rs. 600 per chest.

And so on, Rs. 100 being added to the deposit for every bid additional to the extent of Rs. 400.

redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as Government shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

(vi) The said promissory notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or, whether there shall be a loss on such re-sale or not.

(vii) The promissory notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M., if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

(viii) No tender of money, Bank of Bengal receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause (v) on the fifth day following the day of sale, will be afterwards accepted: Provided always that money so subsequently tendered may be taken in payment of the said promissory note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. (v) and No. (vi).

(ix) The opium advertised for sale shall be paid for not later than 3-30 P.M. of the fifteenth day after the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and, in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as Government shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

(x) Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots or of a different number of lots or chests, whether more or less, than the number of lots or chests ordinarily required to be included in each certificate or order.

(xi) No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

(xii) The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India notes, Bank of Bengal receipts, or Government securities, a sum equal to the amount for which a promissory note would otherwise be taken under the fifth of these conditions.

(xiii) With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained; and the first *bona fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 1,800 specified in the second of these conditions.

(xiv) The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of opium not exceeding altogether fifteen lots, provided always that there remain a sufficient number of lots of the opium to complete the said fifteen.

(xv) In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

5. The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the office of the Government of Bengal :—

No. 1—Certificate of the opium advertised for sale.

No. 2—Report of the examination of such opium.

6. The public are hereby informed that in providing the investment of the opium manufactured at the Ghazipur Factory, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug, when packed at the Ghazipur Factory, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the office of the Government of Bengal.

7. Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the office of the Government of Bengal. But, in accordance with established usage, under no circumstances will the Government entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.
